Louis, in 1904, at the present date amount to \$3,935,500. To this sum may be added \$1,754,500 in hand or being raised from other sources. Bills are pending in the legislatures of sixteen states, aggregating \$1,427,000. Of these bills all are reasonably sure of passing, making a grand total of \$7,167,000 to be expended in showing to the different sections of this country. The legislatures of twelve other states will convene in time to supplement this total and increase it many thousands of dollars. Many states have exhibits already collected worth thousands of dollars, which have been used at former expositions and others that belong to individuals. These are not included in the total. The real value of state exhibits at a very conservative estimate will be over \$10,000,000. The total amount expended for state exhibits at the World's Columbian Exposition at Chicago in 1839 was \$5,250,000, Many states are showing great activity in the collecting of their exhibits, among the foremost of which is Kentucky.
